About AFG Finance

Version 1, published 2026-10-08. Source: https://afgfinance.app/about

AFG Finance provides retail installment contracts for storage sheds, carports, and metal buildings purchased from participating dealers.

When a dealer assigns your contract to us, we hold it, collect your payments, and answer your questions about it.

We offer contracts only in states where we hold the license or registration the state requires. See licensing and state availability.
