How financing works

Version 1, published 2026-10-08. Source: https://afgfinance.app/financing

When you buy a building from a participating dealer, you can pay for it over time with a retail installment contract instead of paying the full price up front.

How it works

1. Choose a building from a participating dealer.
2. Check your options online. We start with a soft credit inquiry, which does not affect your credit score.
3. Review and sign your retail installment contract.

What you need to apply

- Your name, address, date of birth, email, and phone number
- Your income and your monthly housing payment
- The price of the building and any down payment
- Your Social Security number, which you enter on a secure step of the application
